

Aerospace MBA Class of 2009

The University of Tennessee... We Know the Business of Aerospace

The Aerospace MBA Class of 2009 is the sixth class of students in this unique, executive MBA program custom designed for leaders across the aerospace and defense industry. The class includes 21 students representing 7 private companies, the United States Air Force and the Defense Logistics Agency. To date, the Aerospace MBA program has served 125 students over six years from 26 states and DC. Sponsors have included 29 private companies and the U.S. government.
